

Barcelona 31/07/2017

To Whom It May Concern.

I have known Rosa for three years now; she has been my student at the Institute of Performing Arts IAB, Barcelona. I had the pleasure to be her movement teacher and to follow her progress across the Actor's Body module during her three years of study. Throughout that time her dedication and commitment have been very good. Rosa acquired a very good level of practice and she proved that she is a gifted performer.

Rosa has shown a very good understanding of the entire process. She has demonstrated an excellent comprehension of the key idea that the aim is to inscribe the work in the body of the actor in order to create and give life to a performance on stage. She has been very consistent and dedicated in her preparation work and this was very visible in her performances.

Movement wise I can say that she has a very special quality that gives to her actions a feeling of constant flow, her movements are very well connected.

I am very happy to recommend Rosa as a very talented actress.

Yours Sincerely,

Valentina Temussi
